

HORIZON FD 75

Price: at req..

The newest model from FD serial!
More space to feel good!

With its place at the entrance to the series designed by Cor D. Rover, known for its incomparable volume, innovative functionality and intelligent layout, the FD75 itself is a remarkable achievement in terms of design and shipbuilding. The FD75 is designed for owner operation and has a "raised pilothouse" design that offers both an open bridge and an internal steering position.

What is unique is that the FD75 is a four-cabin yacht that has a master cabin on the main deck, the full width of the ship with its own bathroom and walk-in closets, and three spacious cabins (VIP, Twin and Single) on the lower deck. Accommodation for two crew members is aft, and a beach club is optional.

General data

Modell:	Flybridge
